Experience

Branch – Software Development Intern

Starting June 2013

Software development intern for Branch in NYC.

HackNY Fellow – Student Hacker

Starting June 2013

Will live and work with a cohort of some of the most talented and creative student-hackers from across the US + Canada and learn from weekly pedagogical lectures by startup founders, venture capitalists, and designers.

PlayedBy.me – Founder

Dec. 2012 – Present

Developed a website and mobile app that allows you to control the music at the venues you go to by allowing you to add songs to the playlist and up/downvote songs in the queue. The project is currently undergoing development based on a round of beta testing and feedback from local business owners.

Tiggly – Software Development Intern

Aug. 2012 – March 2013

Helped develop Tiggly's first iPad app for children. Assisted with the development and design of the Tiggly website (tiggly.com) and storefront (tiggly.myshopify.com). Also worked with the founders on securing fundraising.

Global Electronic Technology – Project Manager

Jan. 2010 - May 2011

Focused on executing projects that used technology to expand the capabilities of GET's payment gateway. Independently developed and managed the launch of The Payment Company, a brand of GET, which offers payment services to web businesses.
