Work Experience

Estate – Founder, CTO

2015 – 2018

- Managed remote/local engineering team. Planned sprints, wrote user stories/engineering specs, did code reviews.
- Built mobile app for consumers to setup services for their rental property (rent payment, insurance, gas + electric, Internet, etc.) that generated \$100,000+ ARR.

Lob (YC S13) – Software Engineer

2014 – 2015

- Rebuilt lob.com using handlebars and dashboard.lob.com using angular.
- Implemented API versioning, users and accounts, postcard proofs, promotions, and various other API features.
- Helped develop Lob's engineering practices as the 5th employee and 2nd engineer.

HK Labs – Founder and Software Engineer

2013 – Present

- Have completed 30+ contract applications using various tool sets

Branch (Acquired FB) – Software Engineering Intern

2013

- Worked on server testing Potluck's scalability before launch.
- Setup a live-staging environment and user roles to enable feature testing with specific user groups.
- Served as lead engineer on the internal analytics dashboard, profile cards, user context, and several other features.

HackNY Fellow – Student Hacker

2013

- Lived and hacked with some of the most talented and creative student developers in the country.
- Built an app/website, PlayedBy.me, that allowed users to create live collaborative playlists (pre-Spotify).

Tiggly – Software Engineering Intern

2012 – 2013

- Developed Tiggly's first iPad app for children.
- Assisted with the development and design of Tiggly's marketing site and storefront.

Global Electronic Technology – Project Manager

2010 – 2011

- Worked on expanding the features of Safeguard, GET's payment gateway.

Open Source

Maintainer of projects that receive 20,000+ downloads / month

hapi-router, bookshelf-modelbase, react-native-gesture-view, bookshelf-uuid, react-native-vr, bookshelf-bcrypt, verify-address, bookshelf-history, alexa-router, and 69 other projects

Contributor to projects that receive 200,000+ downloads / month

hapi, bookshelf, react-native-camera, react-native-video, react-native-router-flux, react-native-firebase, command-t, react-native-webrtc several other projects.

Education

Harvard University, D.C.E.

Class of 2014

GPA: 3.8

A.L.B., Concentrating in Economics, Secondary in Computer Science
